

MUSLIM AMERICANS IN PUBLIC SERVICE

ABOUT MAPS

MAPS is a national non partisan, nonprofit network of professionals and organizations that aim to create an enabling ecosystem for Muslim American public servants to thrive both personally and professionally.

Our mission is to support the career, workplace, and community development of Muslim American public servants and serve as a catalyst, resource, and force multiplier for the associations that represent and support them. MAPS aims to expand and harness the rich, collective contributions of Muslim Americans across public service sectors to build a more just and equitable United States.

Professional Development

- MAPS creates and promotes skill development, professional networking, mentorship, and career education and advancement resources among members and within MAPS chapters.
- Broadening pipelines into public service is central to MAPS and key to ensuring Muslim American professionals are part of the national effort to build a public workforce that looks more like America.

Ensuring Conducive Workplaces

- MAPS works to facilitate and ensure inclusive workplaces for Muslim American public service professionals and promotes their further contributions and achievements.
- MAPS serves as a strategic partner in fostering a culture of diversity, equity and inclusion within public institutions and supports existing efforts to maintain safe workplaces free of discrimination.

Community Building

- MAPS fosters thriving communities and serves as a connector among Muslim American public servants within all branches and levels of government.
- MAPS shares resources to public servants interested in forming new employee-led organizations, or regional MAPS chapters at their public institutions or local communities, and support and coordinate existing Muslim employee and professional associations and their programs and activities.
